INTRODUCTION AND ACKNOWLEDGEMENTS

The first edition of the VERMONT HIGHER EDUCATION INFORMATION SOURCEBOOK was published in December of 1979 for the Vermont Higher Education Funding Study in response to a Joint Resolution of the General Assembly. The data presented in Vermont's SOURCEBOOK is built upon the national data collection effort known as HEGIS, the Higher Education General Information Survey, and IPEDS, the Integrated Post-Secondary Education Data System.

Every effort has been made to use existing survey documents and studies with only one State specific form requested, the Vermont Supplemental Enrollment Report.

Upon recommendation of the executive and legislative branches of government, revised and updated editions of the SOURCEBOOK were published for 1980, 1982, 1983, 1984, 1985 and 1986. This eighth edition is a compendium of basic information and statistics on a wide variety of higher education activities. Annually, over 400 copies are distributed.

We would like to express our appreciation to the Vermont higher education community, the heads of institutions and agencies and the hundreds of individual staff members who gathered the information, completed survey forms and contributed helpful advice. Without their active help and support this SOURCEBOOK would not be possible.

Very special thanks to Roger Haigh, Director of Computer Services, Vermont State Colleges for all his help with the curriculum tables, and to the other members of the Data Advisory Group - Britta Anderson, Director of Federal Affairs, Research & Planning, Vermont Student Assistance Corporation; Scott Bassage, Director of Planning & Research Services, Vermont State Colleges; Fred Curran, Director Institutional Studies, University of Vermont; Judy Rosenstreich, Executive Director, Association of Vermont Independent Colleges; Ann Turkle, Executive Director, Vermont Higher Education Council - for their generous support of our efforts to "spruce up" this year's SOURCEBOOK and begin the discussion of future data needs in Vermont.

This edition was supported financially from the Commission's General Fund appropriation. The Department of Finance and Management again contributed staff time and facilities.

Comments and suggestions for the improvement of the SOURCEBOOK will be welcomed. We will be glad to answer any questions concerning the contents.

Nancy J. Kirkland
Administrative Assistant

HIGHLIGHTS OF 1987 SOURCEBOOK

INSTITUTIONS

- Expanded information on Vermont's 35 postsecondary education institutions can be found in the Directory of Vermont Institutions. (pgs. 15-20)

ECONOMIC IMPACT

- A new 1988 study estimates the economic impact of higher education in Vermont to be $878 million. (p. 38)

DEGREES

- Vermont institutions conferred 6,165 degrees and other formal awards in FY87 (p. 49)
- Public institutions accounted for 51% of all degrees and formal awards conferred in FY87 -- up from 49% ten years ago. (Graph p. 51)
- In the past ten years there has been a marked increase in degrees awarded in the fields of Business and Management and Computer and Information Science while the fields of Agriculture and Natural Resources, Biological Sciences, Education, Fine and Applied Arts and Physical Sciences have seen significant declines. (Graph p. 59)

ENROLLMENT

- In Fall 1987 32,750 students were enrolled in Vermont Postsecondary institutions. Of this total, 24,419 or 75% were classified as undergraduates and 23,488 or 72% were enrolled full-time. (p. 67)
- Of the 32,750 students enrolled in Vermont institutions in Fall 1987 47% were out-of-state residents. (p. 68)
- 58% of the first-time freshmen in Fall 1987 were out-of-state residents. (p. 69)
- In Fall 1987, 36% of the students enrolled in Vermont's public institutions were from out-of-state, while 63% of the independent sector enrollment came from out-of-state. (p.82)
- Vermont gained a net total of 2,399 students in Fall 1986. While 1,507 Vermonters enrolled in out-of-state institutions, 3,906 out-of-state students came to school in Vermont. (Graph p. 94)
- Vermont institutions realized a 42% increase in part-time enrollment between Fall 1977 & Fall 1987. (p. 97)

HIGHLIGHTS OF 1987 SOURCEBOOK

- From 1977 to 1987, Vermont graduated 12.2% fewer students from its secondary schools. Projections indicate a brief upswing in the number of high school graduates for 1987 and 1988 followed by a period of decline until 1992. A period of recovery is anticipated to begin in 1993 and to continue through 2004. (p. 106)

- Vermont population projections based upon the 1980 census indicate a clear downward trend in the traditional college-age population through 1995 and stabilization in the late 1990's. At the same time, the segment of the population from 25 to 44 years of age is expected to realize substantial growth. (p. 107)

FINANCE

- Between FY79 and FY87 the proportion of current fund revenues from tuition for all postsecondary education institutions in Vermont increased from 41.9% to 45.6%. State appropriations declined as a percent of revenues from 12.5% in FY79 to 9.9% in FY87. (Graphs p. 113-115)

- From FY79 to FY88 Higher Education including debt service declined as a percent of the Total General Fund from 15.2% to 11.3%. (Pgs. 122, 123 & Graph p. 124)

- Vermont ranked 50th among the 50 states in the amount of its 1987-88 appropriation to Higher Education. However, the state ranked 18th in the two-year increase in appropriations. (p. 125)

- Between FY77 & FY87 Vermont General Fund Expenditures decreased for the University of Vermont from 59% to 53% of the total appropriation. Student Assistance totals, increased from 15% in FY77 to 21% in FY87. Vermont State Colleges remained constant as a percent of total support with a 26% share of the appropriation. (Graph p. 129)

- In academic year 1987-88 Vermont ranked number one in cost of undergraduate tuition and fees for resident (VT) students at both the state colleges and the state university. (pgs. 136 & 138)

- In FY 1987 8,941 students received loans and 10,099 received grants from Vermont Student Assistance Corporation. (p. 141)

- 35% of the $8.2 million Vermont Student Assistance Corporation grant dollars were awarded to college students attending in state independent institutions; 27% of grant dollars were awarded to Vermonters attending institutions outside of Vermont. (p. 142)

- There was a 54% increase between FY86 and FY87 in the number of Vermont Student Assistance Corporation grants to non-degree students. (p. 142)

- Vermont Higher Education Funding Study - December 1979

GENERAL INFO

THE VERMONT HIGHER EDUCATION SYSTEM

Vermont has an unusual system of higher education. It differs from those of most other states in the way it is financed, the way it is organized and coordinated, the sources of its students, its importance to the state's economy and in other ways.

Vermont's financing of higher education represents a "high tuition/high student aid" approach as compared to most other states. That is, the state supports its public institutions at a level far below that provided by most states for similar colleges and universities. This results in very high tuition rates -- the highest or near the highest in the country. However, the state provides high quality student financial aid programs for its students through the Vermont Student Assistance Corporation, supplementing national and other sources of assistance. These programs help Vermonters needing assistance to attend colleges, universities or other postsecondary schools, either in Vermont or elsewhere. This "high tuition/-high student aid" approach to the financing of higher education may be the single most important characteristic of Vermont's higher education system that sets it apart from those of most other states.

The system has other important characteristics, some resulting from Vermont's unusual financing approach and others that are not directly related:

- Vermont's state-assisted institutions and agencies are autonomous entities established as separate corporations and governed by independent boards; while they are not organized as integral parts of state government, they are responsive to its interests and concerns through the Governor's and General Assembly's selection of board members and through continuing open discussion, reports, audits and other communications.

- Vermont has no single overall governing or coordinating board with authority over all public institutions, or -- as in some states -- over all higher education institutions, both public and independent. The Vermont Higher Education Planning Commission is an advisory board with no authority over institutions and no ambition to seek such authority. It achieves its goals through open discussion, by providing accurate bench mark information and analysis and by seeking consensus among diverse groups and interests.

- Vermont's higher education system includes a large and diverse group of both independent and state-assisted colleges and universities which serve thousands of Vermont students and offer a wide range of education programs.

- Vermont's colleges and universities, both state-assisted and independent, enroll large numbers of students from other states. Vermont is one of the leaders in the country in percentage of its total enrollment coming from out-of-state.

- A greater percentage of Vermont's young people leave the state to go to college or other postsecondary schools than is the case in most states.

- A greater percentage of Vermont high school students graduate from high school than in most other states, while a smaller percentage of Vermont high school graduates enter college immediately after high school than the national average.

- Higher education, considered as an industry, is a more important part of the economy in Vermont than in most states. Almost half of its students and/over half of its income are from sources outside the state. It can be considered one of Vermont's major industries.

- Only a few states appropriate smaller amounts of tax funds per capita of state population to support higher education -- both institutional support and student assistance. A small number of states use a smaller percentage of total personal income than Vermont to support higher education.

- Vermont has a large proportion of out-of-state students paying high non-resident tuition nearly equal to the costs, thus education appropriations primarily support the resident enrollment. Therefore, in Vermont appropriations relative to total enrollment are substantially lower than in other states because of this dependency on non-resident tuition.

In summary, Vermont has a unique system of higher education. This SOURCEBOOK presents bench mark information and statistics intended to assist the reader to understand the nature of the system, how it serves Vermonters and others, and how it has been financed. Its future depends in part on how well Vermonters understand these matters.

Bennington College

Bennington, VT 05201
County: Bennington
Telephone: (802) 442-5401
Established: 1925 Calendar System: Semester
Enrollment: 598 Annual Undergrad Tuition & Fees: $14,850
Affiliation/Control: Independent Non-Profit Coed
Highest Offering: Master's
Program: Liberal Arts and General
Accreditation: EH
President.....Dr. Elizabeth Coleman

ECONOMIC IMPACT

Higher Education an Important State Industry

While higher education is primarily thought of in terms of the educational and cultural services it offers to Vermont and Vermonters, it is also an industry. This section presents information concerning a frequently ignored aspect of Vermont's large and varied higher education enterprise -- its substantial impact on the economy of the state.

Summary of "THE ECONOMIC IMPACT OF HIGHER EDUCATION IN VERMONT"

The first statewide study was conducted in 1978 by the Vermont Higher Education Council assisted by this Commission. The Council conducted a new study in 1982 and published a revised and updated report. At the same time the Association of Vermont Independent Colleges published a brochure entitled "Vermont's Independent Colleges: A $310 Million Impact," which emphasized their economic contributions. In 1988 the Association of Vermont Independent Colleges and the Higher Education Council collaborated on a new economic impact study. Highlights of the 1988 report follow:

- Employment -- With more than 7,800 employees and an annual payroll of $155 million higher education is one of the larger employers in the state.

- Expenditures and Multipliers -- The colleges spend most of their revenues for goods and services locally, within Vermont. Local expenditures of the institutions themselves as well as those of faculty, staff, and students, state and local taxes (paid mainly by faculty and staff) amounted in FY87 to total college-related Vermont expenditures of $351 million. Among these expenditures are:

    - Capital construction over the past 5 years - $89 million

    - Interest Payments in FY87 - $2.7 million

    - Institutional Financial Aid to students - $15.7 million

Each dollar spent in Vermont changes hands several times before leaving the state's economy, multiplying the economic impact. Using a typical Economists multiplier of 2.5, the impact is $878 million.

Considering these indicators, it becomes clear that higher education is a much more important part of the economy in Vermont than in most states.

HIGHER EDUCATION AND THE BUSINESS COMMUNITY OF VERMONT

The Vermont Higher Education Planning Commission, which had earlier developed the 1979 Higher Education Funding Study and the A.I.M. report on the public financing of higher Education in Vermont, published a report in February 1987 titled "Higher Education and the Business Community of Vermont". This report was issued in response to Governor Kunin's Executive Order to the Commission urging emphasis on higher education as it relates to the general economy of the state. If focuses on one of the vital links between education and the economy of Vermont, e.g., the provision by higher education of direct services to business and industry in Vermont.

The Commission believes that education plays a vital role in the development and maintenance of a strong economic sector. In addition to fostering generic skills, providing advanced training, sponsoring programs of basic research and providing direct services to industry and business, higher education provides other stimuli to Vermont's economy: institutions have positive effects on the local economy of their communities and regions; students from out-of-state bring new capital to Vermont; and higher education attainments enhance Vermonters' earning power, and consequently, tax contributions.

Vermont is fortunate to have a comprehensive system of higher education. The mix of public and private, two-year and four-year institutions which offer the full range of selective to open admissions is a valuable asset to Vermont's economy. These institutions serve the Vermont economy by producing graduates with the skills for the full-range of occupations and professions.

The report concludes that the State has the essential elements in place for a strong higher education-economic development linkage, but that these programs are not well known, and, therefore, a comprehensive and coordinated delivery of these services will enhance Vermont's business climate.

AIM REPORT TO THE LEGISLATIVE COUNCIL
ON CERTAIN ASPECTS OF PUBLIC FINANCING OF HIGHER EDUCATION IN VERMONT

OCTOBER 1983

-SUMMARY-

The 1983 session of the General Assembly authorized the Legislative Council to fund a study of the financing of higher education. In July the Legislative Council contracted with Associates in Management (AIM), a Burlington consulting firm, to conduct the study, which was completed in October, 1983. Highlights of the AIM report follow:

Corporations Well Managed and Responsible

The Three public corporations -- University of Vermont, Vermont State Colleges and Vermont Student Assistance Corporation -- are financially well managed and fiscally responsible. The financial condition of UVM and VSC has improved significantly in the last several years. VSAC has grown rapidly and is sound financially. All three are able to adapt to changing financial conditions over time by changing programs and operations.

Vermont's System Stable and Has Good Reputation

While other states are organized differently, with most having a single agency or board with control over all higher education, Vermont's system of higher education has been relatively stable and it has a good reputation.

Higher Education Different From State Agencies

UVM, VSC and VSAC are independent public corporations, each with a Board of Trustees with many members elected by the Legislature and Governor. There are marked differences between the higher education corporations and state agencies which must be recognized in the funding process. UVM and VSC operate in a competitive marketplace environment and must provide education at a price that will attract students and revenues. From one-third to more than half of the students come from out-of-state. To all three corporations generating non-state revenues is an important operational consideration. All three must manage their own financial resources. Unlike state agencies they must administer their own employee salaries and benefits and provide increases without benefit of annual pay acts. They are also responsible for their facilities operations -- occupancy costs, including energy costs, are fully reflected in their budgets.

"High" Tuition and "Low" State Support Linked

Tuition rates at UVM and VSC are the highest or close to the highest in the country for similar public institutions. Per capita state appropriations for higher education in Vermont are among the lowest. "High" tuition and "low" state support are linked. The state does devote a larger share of its higher education appropriations than all states but one to student financial aid, through VSAC. Tuition policy at UVM and VSC is guided by market conditions and available funds.

Board of Trustees Have Ultimate Responsibility

Each has a Board of Trustees, with members elected by the Legislature and Governor, which elects officers and has the ultimate authority and responsibility to operate the corporation. The first direct way for the state to influence financial and educational affairs is through selection of Board members. If it is acknowledged that the Boards effectively manage the operations of each corporation, then legislative efforts should be concentrated on broad financial dimensions and state policy issues. If there is concern for Board effectiveness then attention should be focused on selection of members to the Board and ultimately on the structure of the Board.

Financial Statements Receive Unqualified Audit Opinions

The financial statements of UVM, VSC and VSAC have been audited in accordance with generally accepted auditing procedures. All have received unqualified opinions for the last three years, a standard many states have not achieved. Such audited statements are an important assurance of complete and accurate financial pictures and they should be the basis for all actual financial data reported to the state. AIM has suggested some changes in the interests of clearer presentation and more uniformity among the three corporations. AIM also recommends that the statements should be accompanied by Management Comments highlighting the important financial information.

Higher Education Accounting Different and Complex

Accepted accounting and financial reporting practices for higher education are different and more complex than those used for businesses. They can be confusing, particularly in the treatment of plant and equipment expenditures. Colleges and universities are prohibited in current practices from charging depreciation of capital assets. Funds for replacement and modernization are clearly necessary. The three corporations handle such transactions differently. AIM recommends a uniform procedure to permit clearer understanding from the state viewpoint.

UVM's Base Budget A Valid Management Concept

UVM uses a base budgeting concept for budgeting the Current Fund. It is intended to balance Current Fund expenditures, over the long-term, with Current Fund revenues, ignoring short-term fluctuations and transient economic conditions. Actual income and/or expenditures for a given year may be above or below the base budget for that year, possibly resulting in "one-time" revenues, which may only be used for "one-time" expenditures. It is a valid management concept. It has been the subject of much discussion and confusion. UVM should include in the Appropriations Request an estimate of expected revenues and expenditures for the budget request years and the Legislature should consider the long-term trends in its appropriation decisions.

Key Financial Data and Core Statistics Should Be Provided

There is more than enough information available about the activities of UVM, VSC and VSAC. AIM recommends distillation of the bulk of the information into a relatively few pieces of key financial data and core statistics, covering five to ten years, and presenting significant trends of financial and related operating information, much of it in graphic form. A list of suggested basic elements is included. AIM recommends that the Joint Fiscal Office and Budget and Management work with all three corporations to develop final formats and content. This information should accompany appropriation requests starting with requests for FY 1986 appropriations.

Appropriations Process Should Be Revised

The current appropriations process is more difficult than it should be. The three corporations submit requests on forms that were designed primarily to serve state agency considerations, emphasizing expenditures. Revenues from non-state sources are more important to the institutions than for most state agencies. State format does not provide for balance sheet information or funds-oriented financial systems. Data should be provided in form consistent with audited financial statements. Summary information should be presented in a form which encourages a broad look at the total financial situation and discussion of the most significant issues.

Higher education appropriations requests should present prior year and current year data in three columns each, showing the appropriation request budget, operating budget and actual or estimated data. The request should be accompanied by Audited Financial Statements, including Management Comments and suggested Key Financial Data and Core Statistics. It should also include summary information on capital expenditures and funding.

There should be more of a link between General Fund Appropriations Request and Capital Appropriations Request. Program and operating budget implications of each major capital request should be outlined. Total capital expenditures and expected sources of funding should also be shown.

Observations and Comments on Ten Policy Issues

Vermont is unique among the states in its governance structure for higher education and shares with one other state -- Delaware -- in having a planning commission but no statewide governing or coordinating board. Unlike many states, Vermont does not use enrollment-driven funding formulas, which can simplify the appropriations process, maintain historical relationships and help make funding levels more predictable, but can also produce problems when situations change. The Legislature should decide whether it wants to continue funding UVM as a single institution or if each major purpose (tuition reduction, the medical school and agricultural research and extension work) should be separately considered and funded. Three kinds of portability are identified: the veterinary school contracts, the New England Regional Student Program and VSAC grants to attend out-of-state schools and colleges. All three higher education corporations (UVM, VSC, VSAC) have financial strength to meet current expenditures with current revenues. Only UVM has financial reserves to meet temporarily adverse conditions and it has a much greater pool of applicants. The state's commitment to each institution's support is an important policy factor in financial health. In considering multi campuses and open admissions, it is noted that a four campus/open admissions policy is more costly than a reduced campus/selective admissions policy. Geographic distribution of higher education is such that there are no public campuses in the southern part of the state. Brokering activity has been suggested as a way to meet needs in such areas. The Community College uses a similar approach. In considering institutional versus student support, a Higher Education Planning Commission staff paper is cited as providing a useful exploration of five alternative funding policy approaches. In a discussion of coordination and control, the common belief that increased central control results in increased efficiency in use of funds is questioned. At the Policy Conference concerns were expressed that more central state control means less academic freedom. It is noted that students entering UVM and VSC have significantly different SAT scores, which suggests that the institutions are serving different student populations. In discussing future educational directions, it is noted that the New England Board of Higher Education has been promoting much closer connections between higher education and the economic community. However, arguments that education in technology needs to be increased are countered by an article by Levin and Rumberger on "The Low-Skill Future of High Tech".

Redfern Article on Statewide Planning as an Instrument for Policy Making in Vermont Higher Education

AIM included an article by Dr. Leo Redfern for additional perspective. It discusses how a statewide planning commission for higher education could be useful in Vermont, with some strengthening of the present arrangement. Its purpose should be to facilitate better understanding of the current situation, promote the ability of institutions to recognize and adapt to emerging developments in an opportune manner, help crystallize attention and response to the major goals sought by the state and its citizens from the higher education system.

He identifies two main forms of statewide planning: development of master plans and development of a planning process. He considers the latter to be more flexible, useful and successful.

He suggests as an "illustrative pattern" a 12-member commission with four appointed by the Governor, four by the Legislature and four "segment representatives" selected by UVM, VSC, VSAC and private institutions, probably from Boards of Trustees.

Staffing should be minimal and dependence on cooperation and help from other groups and institutions, as at present, should continue. However, the staff director should be the primary job assignment, not an added subsidiary function of the individual concerned. He suggests that the staff ought to be augmented on a sustained basis by each segment designating an appropriate staff member whose normal professional assignment will incorporate services on the planning staff team, and possibly also one each from the Budget Office and the Legislature's staff.

He lists functions and needed data and projections the Planning Commission should assemble.

"Vermont already possesses the basic configuration for the planning process suggested. What might be strengthened in the present arrangements are (a) enhanced staffing arrangements, (b) more sharply focused data oriented toward the articulated goals and objectives, and (c) more initiative by the Commission (made possible by increased staffing resources) in stimulating greater awareness of progress and potential problems on the part of the Governor, Legislature, higher education system and the citizens of Vermont."

VERMONT HIGHER EDUCATION FUNDING STUDY

DECEMBER 1979

-SUMMARY-

In response to a Joint Resolution of the General Assembly adopted in April 1979, the Commission, working jointly with four members of the House and Senate, conducted a study of how Vermont higher education is financed and developed recommendations for future operation and funding. A report was presented to the General Assembly in January 1980. Highlights of the report follow:

- Vermont's approach to financing higher education follows a "high tuition/high student aid" pattern compared to most other states and requires a "balanced" mix of state appropriations to help support the public institutions and to provide a relatively high level of assistance to students to attend any institution. This approach makes sense for a small state with limited resources.

- The share of the state General Fund appropriated for higher education -- both institutional support and student aid -- has declined steadily for ten years. This trend should be halted.

- Vermont's appropriations of tax funds to support higher education increased less in ten years than any other state's. In terms of higher education appropriations per capita of state population, Vermont ranked 46th among the fifty states in 1980, declining from 28th rank in 1970. In terms of the percentage of total personal income used for tax support of higher education, Vermont declined from 15% above the average of all states in 1970 to 24% below and 43rd rank in 1980. However, Vermont's per capita personal income also increased less than that of other states and ranked 44th and 16% below the U.S. average in 1978.

- Vermont should pursue these <u>policy goals</u> for higher education: (1) to encourage a diversified system of public and independent institutions offering a wide variety of educational opportunities; (2) to promote development of high quality programs; (3) to permit Vermonters reasonable freedom of choice of education programs and institutions; (4) to provide Vermonters access to higher education, which should not be denied because of geographic location or lack of funds, information of remedial programs; (5) to require accountability of higher education institutions, and responsiveness to changes in society's goals and needs, demographic trends and availability of resources.

- The study also proposed a set of thirteen <u>operating principles</u> to guide appropriation of public funds to achieve the above policy goals:

Public Institutions

1. If limits on admissions exist, qualified Vermonters should be assured admission before out-of-state students.

2. Auxiliary services should be self-supporting.

3. Increased institutional costs which result from cost of living changes and cannot be absorbed or offset should be matched by increases in in-state and out-of-state tuition and fees, state appropriations and other general revenue sources.

4. Vermont higher education public policy should be designed to enable Vermont students to take maximum advantage of federal student financial aid programs.

5. Vermont state appropriations should not subsidize out-of-state students (except NEBHE).

6. Vermont institutions should provide programs that meet critical employment needs and offer high employment opportunities for Vermont students.

7. State institutions are expected to operate prudently to control costs, improve efficiency, maintain balanced budgets and provide high quality educational services without incurring unauthorized future obligations.

Independent Institutions

8. Tuition Differential Grants should be available, through VSAC, to provide Vermonters reasonable freedom of choice to attend independent Vermont colleges.

All Institutions

9. Program offerings of both public and independent institutions should afford all students maximum selection without unnecessary duplication.

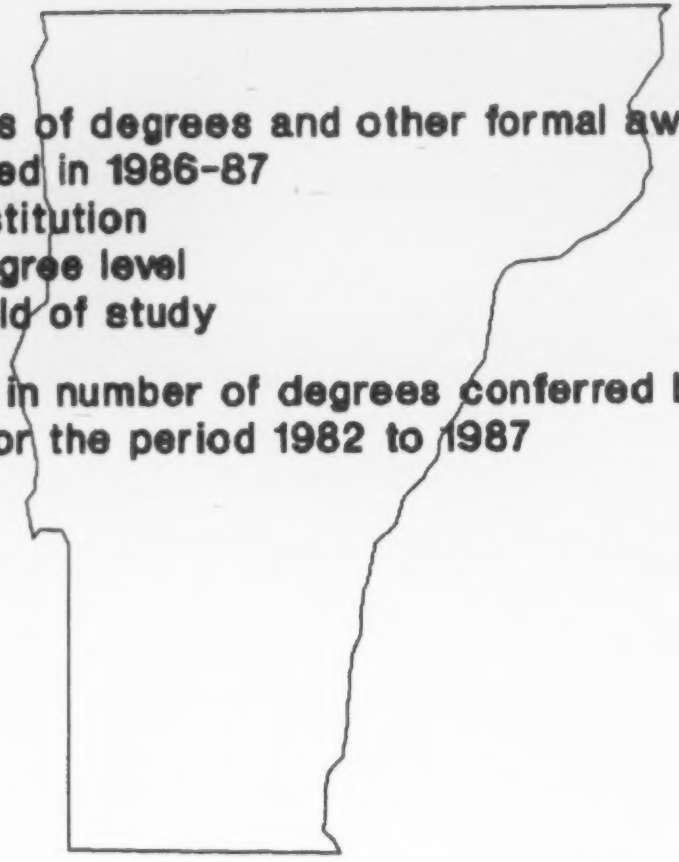
10. Outreach services providing financial aid and occupational and educational information should be available to Vermonters to inform them of higher educational opportunities.

11. Institutions should provide instruction to as many Vermonters as possible, with special attention to improving needed outreach services, within the capacity of existing facilities.

12. Incentive Grants should be available, through VSAC, to Vermonters attending higher education institutions both in Vermont and out-of-state.

13. Necessary steps should be taken by VSAC to ensure that student loans will be available to all who qualify for them.

DEGREES



- numbers of degrees and other formal awards conferred in 1986-87
  - by institution
  - by degree level
  - by field of study
- change in number of degrees conferred by field of study for the period 1982 to 1987

Vermont Standardized Full-Term Enrollment (see definitions at front of report) should not be confused with Full-Time Equivalent Enrollment which, although the concept is somewhat similar, may be defined and measured differently by each institution.

* Credit hour data not available for medical students; however, 369 medical students are included in VSFTE numbers.

** These are Landmark College students who split their time between the College and Pre-college programs. Landmark College has an additional 114 students in Pre-College courses.

VERMONT ADULT BASIC EDUCATION
ACHIEVEMENTS -- FY 1987

4,760	TOTAL ADULTS SERVED
4,119	Beginning/Intermediate
404	Advanced
237	English-as-a-Second Language

PROFILE OF PARTICIPANTS:

3,139	Were Female
3,066	Lived in Rural Areas (less than 2,500 people)
1,428	Were Unemployed and Available for Work
1,550	Were Receiving Public Assistance

LOCATION OF SERVICE:

3,078	Served at Home
1,197	Served at Learning Centers
93	Served at Worksites
61	Served at Secondary Schools
331	Served in Other Locations

ACHIEVEMENTS OF PARTICIPANTS:

3,008	Improved Reading Skills
2,541	Improved Writing Skills
2,885	Improved Math Skills
660	Passed GED or Obtained a Diploma
547	Helped Children with Homework or School Problems
171	Were Removed or Decreased amount of Public Assitance
295	Voted or Registered to Vote for the First Time
262	Received a Driver's Permit

IMPROVED EDUCATION SKILLS ENOUGH TO:

404	Get a Job
210	Hold Present Job
202	Get a Better Job or Salary Increase

OBTAINED OR IMPROVED COMPETENCIES IN:

613	Government and Law
797	Community Services
766	Consumer Economics
623	Parenting Skills
561	Health Care
1,542	Communication Skills

AVERAGE COST PER STUDENT: $427

NOTE: No data collected in 1978.
Recent data is not exactly comparable to studies before 1980 since it was gathered a year after high school graduation. Also, high no-response rates were reported at several high schools for 1980, 1981 and 1982.
* Two schools did not respond.

ASPIRATIONS OF VERMONT HIGH SCHOOL GRADUATES

Vermont High School Class of 1986

During the Spring of 1986, the Survey of Plans for Education and Careers (SPEC V) was administered to seniors at Vermont high schools. In total, 77% of all Vermont seniors participated in the survey.

The results of the 1986 survey showed that 79% of Vermont seniors planned to obtain additional education or training at some time. Approximately 59% of seniors planned to continue their education on a full-time basis immediately following high school. Another 3% of students stated that they would pursue further education on a part-time basis after completing high school.

Though not continuing their education right away, an additional group of approximately 16% of all students did indicate a desire to seek more education or training in the future. Only 7% of Vermont seniors ruled out additional education in their future plans. The proportion of students in this non-continuing category has decreased significantly since 1978.

[1] Includes those who plan to start a two-year college and later transfer to a four-year college.

In 1986, seniors' immediate educational plans were found to be most strongly influenced by the following factors:

- parental attitude toward post-high school plans
- cumulative grade point average
- parental education
- parental income

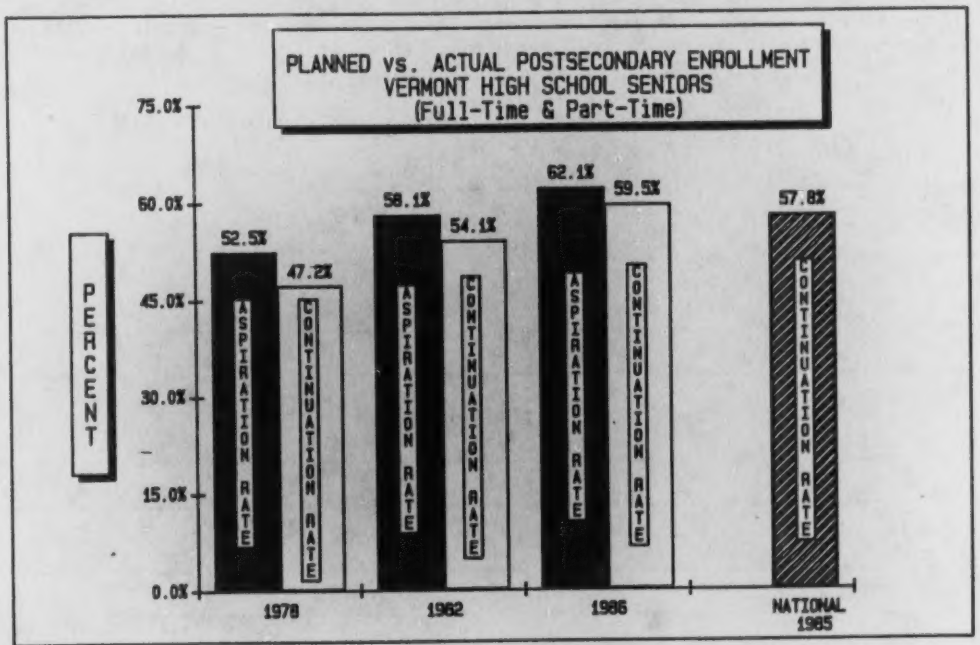
ACTUAL ACTIVITIES AFTER HIGH SCHOOL

Vermont High School Class of 1986

In the Fall of 1986, nearly 60% of Vermont's High School Class of 1986 enrolled in postsecondary educational programs on either a full- or part-time basis (56.8% and 2.7%, respectively). This continuation rate marks a 12% increase over the rate for the Class of 1978.

Vermont's 1986 continuation rate is higher than the national continuation rate for 1985.



Factors most closely related to the continuation of education beyond high school include:

- parental encouragement
- enrollment in a college preparatory program
- gender, with females being more likely to continue their education immediately (67% versus 55%).

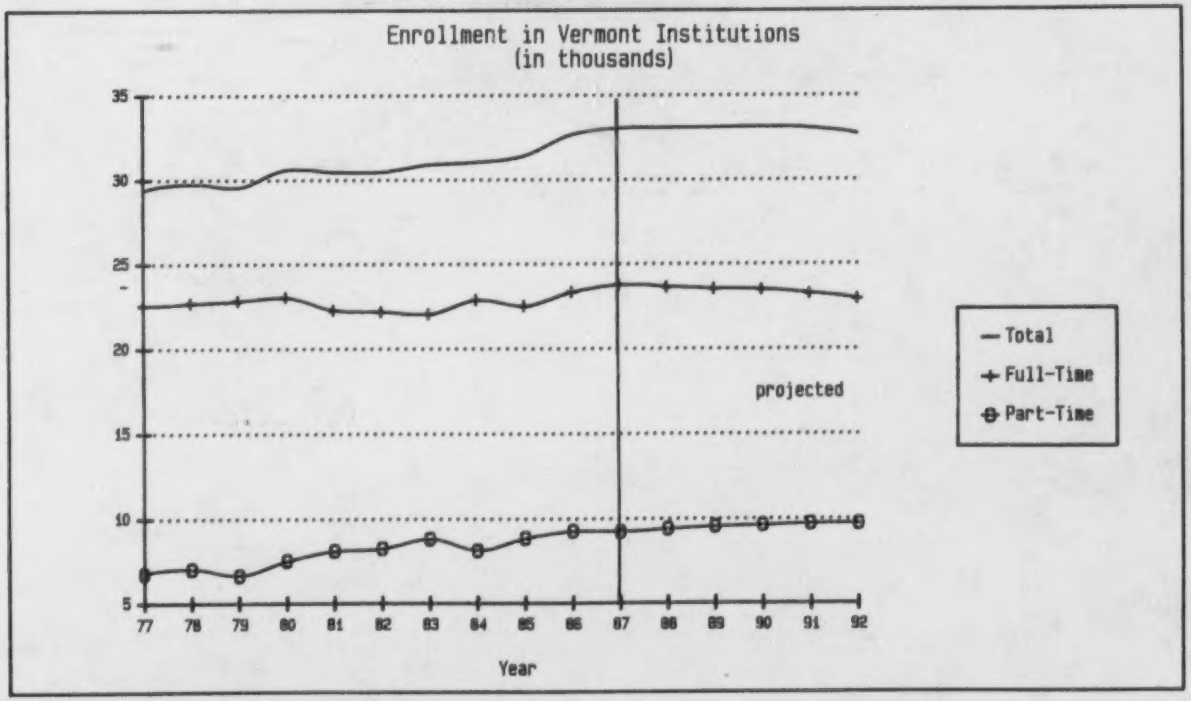
National continuation data from Center for Education Statistics, Digest of Education Statistics 1987, 1987, p. 289.

ENROLLMENT PROJECTIONS

Despite the shrinking traditional college-age population, Vermont's total enrollment in higher education grew nearly 13% from 1977 to 1987. Full-time enrollment grew by 5.4% while part-time enrollment increased by 36%. Coinciding with the increase in part-time attendees is an expansion in the portion of Vermont's population from age 25 to 44 (see Table I, following page). This shift toward greater part-time participation is projected to continue through 1992 and total enrollment is expected to hold steady at the current level (Figure I).

FIGURE I



SOURCES: Vermont Supplemental Enrollment Surveys 1977-1987. Data received from Vermont Law School Business and Registrar's Offices for 1983-1986. Data received from Goddard College Admissions Office 1984.
Vermont Student Assistance Corporation, Vermont Postsecondary Enrollment Projections, 1988.

NOTES: No data for Community College of Vermont 1977 and 1978.
No data for Goddard College 1981; incomplete data 1987.
Projections based on Center for Education Statistics' national ratios.

From 1977 to 1987, Vermont graduated 12.2% fewer students from its secondary schools. Projections indicate a brief upswing in the number of high school graduates for 1987 and 1988 followed by a period of decline until 1992. A period of recovery is anticipated to begin in 1993 and to continue through 2004 (Table II).

SOURCE: Western Interstate Commission for Higher Education, Teachers Insurance and Annuity Association, The College Board, High School Graduates: Projections by State, 1986 to 2004, March 1988, p. 32.

Vermont population projections based upon the 1980 census indicate a clear downward trend in the traditional college-age population through 1995 and stabilization in the late 1990's. At the same time, the segment of the population from 25 to 44 years of age is expected to realize substantial growth (Table I).

Total U.S.	**$ 34,042,009,000**		**+11%**	**+ 5%**	

Note: Percentages shown are rounded. Rankings are based on unrounded figures.

(a) Reported by Edward R. Hines of Illinois State University as state tax funds appropriated for operating expenses for higher education, for student aid, and for governing and coordinating boards. Amount of appropriations may be changed in some states because of increases or decreases in revenue. Not included are appropriations for capital outlays and money from sources other than state taxes, such as student fees. Included are appropriations for annual operating expenses even if appropriated to some other state agency for ultimate allocation to colleges and universities.

(b) Increase in appropriations for 1987-88 over 1985-86, as reported by Edward R. Hines.

(c) Two-year increase in appropriations adjusted for inflation of 5.5 per cent, as indicated by the Labor Department's Consumer Price Indexes for June, 1987, and June, 1985.

STATE SUPPORT FOR HIGHER EDUCATION CAPITAL CONSTRUCTION
1986 - 1988

SUMMARY OF BOND ACT AUTHORIZATIONS

University of Vermont	$6,000,000.00
Vermont ETV	800,000.00
Vermont State Colleges	6,378,000.00
TOTAL HIGHER EDUCATION	$13,178,000.00

Detail, UNIVERSITY OF VERMONT

Authorized in 1986:	
Second phase of Votey Building - construction of an addition	2,000,000.00
Authorized in 1987:	
Complete renovation of the Hills Agricultural Bldg.	2,000,000.00
*Vermont ETV -- New Equipment	(400,000.00)
Authorized in 1988:	
Phase one renovation of Gutterson Fieldhouse and Old Mill Building	2,000,000.00
*Vermont ETV -- New Equipment	(400,000.00)
TOTAL UNIVERSITY OF VERMONT	6,000,000.00

* Not included in UVM total -- not for benefit of UVM

Detail, VERMONT STATE COLLEGES

Authorized in 1986:	
Replacement of Johnson State College Library Roof, Walkway Lighting at Johnson and Castleton State, Electrical System Upgrading at Johnson and Lyndon State Colleges, Telecommunications Replacement/Academic Equipment Enhancement/Phase III of Academic Facilities at Vermont Technical College, Phase II of Harvey Academic Center Renovations at Lyndon State College, Concrete Repairs and Steam Line Repairs at Johnson State College	1,570,000.00

Detail, VERMONT STATE COLLEGES (CONT.)

Authorized in 1987:	
Purchase of a 350 acre farm, Vail Hall roof replacement at Lyndon State College, Energy conservation improvement at VT Technical College, Phase III of academic facilities renovations at VTC, Telecommunications classroom at VTC, Energy conservation window replacements at Johnson State College, Phase II upgrading electrical system at Johnson State College, Analyze & develop solution to brick problem at Johnson State College, Life safety regulation compliance at all campuses, Design of health and physical education facilities at all campuses, Athletic field grading and drainage at Lyndon State College, Multi-purpose livestock building at VTC	1,808,000.00
Authorized in 1988:	
First phase of expansion of and improvements to student health and physical education facilities at Castleton State College, Johnson State College, Lyndon State College, and Vermont Technical College	3,000,000.00
TOTAL VERMONT STATE COLLEGES	6,378,000.00

Major Financial Aid Programs

Programs	Who Is Eligible to Apply?	How Much Are Awards?	How Are They Awarded?	How to Apply?
Vermont Incentive Grants	Any full-time undergraduate Vermont resident who plans to attend or is enrolled in an approved post high school institution in a degree program and has not already received a bachelor's degree is eligible. Incentive Grants are available for Vermonters enrolled at the University of Vermont College of Medicine or enrolled in Doctor of Veterinary Medicine programs at accredited schools of Veterinary Medicine.	For the 1987-88 college year, VSAC Incentive Grants supplemented expected parents' contributions and PELL Grants to assure funding up to $3,050 for eligible students attending Vermont public or out-of-state institutions. For students attending Vermont private institutions, up to $1,200 additional funding was available.	Based upon financial need.	**STEP #1** Obtain and complete a "Financial Aid Packet for Vermont Students" from your high school guidance office, college financial aid office, or by calling VSAC toll-free within Vermont at 1-800-642-3177 (in the Burlington area, call 655-9602). **STEP #2** If you are applying to out-of-state colleges, consult the college catalog for financial aid deadlines and forms that may be required in addition to the above packet. PLEASE NOTE: The Vermont Incentive Grant priority date is March 1st. However, applicants applying after March 1st will be considered for grants if funds become available. Be sure to check college catalogs for application deadlines.
Federal Programs — Pell Grants	Any undergraduate student who plans to attend or is enrolled in an approved post high school institution in a degree program in at least half-time study and who has not already received a bachelor's degree is eligible.	The amount of a grant is based on a Federal formula that applies to all students. The grant award varies annually.	Based upon financial need.	
College Based — Supplemental Educational Opportunity Grants (SEOG)		The maximum award allowable is $4,000 per year.	Based upon financial need.	
College Based — Perkins Loans (formerly NDSL)	Any undergraduate or graduate student who plans to attend or is enrolled in an approved post high school institution in a degree program in at least half-time study is eligible.	Total loans may not exceed $9,000 for the period of undergraduate study at 5% simple interest. An additional depends on college attended.	Based upon financial need.	
College Based — College Work-study Programs (CWSP)		Depends upon the number of hours the student works.	Based upon financial need.	
Vermont Non-Degree Student Grant Program	Any Vermont resident enrolled in any non-degree course that will improve employability or encourage further study.	Full tuition, up to $175 for one course per semester.	Based upon financial need.	Applications are available at Vermont Job Service offices, Vermont colleges, or by calling VSAC.
Vermont Part-Time Student Grants	Any Vermont resident who is accepted or enrolled in a degree, diploma, or certificate program at the undergraduate level. Applicants must be taking fewer than twelve credits per semester and not yet have received a Bachelor's degree.	Awards vary depending on credit hours taken.	Based upon financial need.	Applications are available from VSAC or the college financial aid office. 1987-88 applications should be received not later than January 31, 1988.
Vermont Senatorial Scholarships	Any Vermont resident attending an approved Vermont college, university or school of nursing or accredited Vermont graduate school is eligible. Vermont residents attending accredited out-of-state graduate schools are eligible if the graduate degree to be obtained is not available in Vermont, or if the student has applied for admission to a comparable Vermont school or institution and has not been accepted.	Senatorial Scholarships range from $100 to $500.	Senatorial Scholarships are awarded on the basis of financial need. A student cannot accept both a Senatorial Scholarship and a VSAC Incentive Grant, but can apply for both.	Interested students should apply directly to the Vermont State Senator from their county.

Major Financial Aid Programs

Programs	Who Is Eligible to Apply?	How Much Are Awards?	How Are They Awarded?	How to Apply?
Vermont Guaranteed Student Loans	Any undergraduate or graduate student who is enrolled or has been accepted for enrollment as at least a half-time student.	Eligible undergraduate students may borrow up to $2,625 per year for the first two years; $4,000 for the third, fourth and fifth years. Total outstanding loans may not exceed $17,250. Graduate students may borrow up to $7,500 per year; total outstanding loans may not exceed $54,750 including loans received for undergraduate study.	Disbursed by participating lenders. All borrowers will be required to demonstrate financial need. The interest rate is 8% for new borrowers.	Applications are available at all participating Vermont lending institutions (banks, credit unions, savings and loan associations), college financial aid offices, or by calling VSAC toll-free at 1-800-642-3177 (in the Burlington area, call 655-9602).
Vermont PLUS Loans (Supplemental Loans for Parents)	Parents of dependent students. PLUS Loans are intended to be used as a supplement to GSL because interest rates are higher than GSL and repayment begins immediately.	Parents $4,000 per academic year for each dependent student enrolled at least half-time. $20,000 maximum aggregate amount for each student. PLUS loans may not exceed the student's estimated cost of attendance less the estimated financial assistance awarded.	Disbursed by participating lenders or VSAC Secondary Loan Market. Borrowers may be required to meet established credit standards. For loans disbursed on or after July 1, 1987, the interest rate is 10.27% (annual variable rate not to exceed 12%).	
Vermont SLS Loans (Supplemental Loans for Students)	Any independent undergraduate or graduate student who is enrolled or has been accepted for enrollment as at least a half-time student.	Eligible independent students may borrow up to $4,000 annually; $20,000 maximum aggregate amount. A SLS Loan may not exceed the student's estimated cost of attendance less the estimated financial assistance awarded.	Disbursed by participating lenders or VSAC Secondary Loan Market. For loans disbursed on or after July 1, 1987, the interest rate is 10.27% (annual variable rate not to exceed 12%).	
Vermont EXTRA Loans (Supplemental)	Students or the parents of a student enrolled in a Vermont postsecondary school or Vermont residents attending out-of-state schools. Borrowers must meet established credit standards.	An EXTRA Loan may not exceed the student's estimated cost of attendance less the estimated financial assistance awarded.	Disbursed by VSAC's Secondary Loan Market. Interest rate is 10.27% (annual variable rate with no ceiling).	Applications are available at VSAC's Secondary Loan Market: P.O. Box C-999, Champlain Mill, Winooski, VT 05404-0999. Call toll free in Vermont at 1-800-338-0191 or in the Burlington area, call 655-4050.
Local Scholarships	Consult your local high school guidance counselor for further information. Pick up a copy of VSAC's "PRIVATELY SPONSORED SCHOLARSHIPS AVAILABLE TO VERMONTERS."

(1) Adjusted Gross Income. Higher income recipients generally have two or more children in college.

(2) Implementation of the Equal Opportunity Funding Model (EOF), developed by VSAC for uniform distribution of State Incentive Grant Funds, incorporated a methodology which provides VSAC with the capability of "capturing" the federal Pell Grant dollars in its Incentive Grant awarding process. Pell Grants serve low income students first; therefore, VSAC is able to fund more middle income families as lower income families receive Pell assistance.

NOTES FOR VERMONT GENERAL FUND APPROPRIATIONS AND EXPENDITURES
Tables on pages 122 through 126

[1] This report presents appropriations, not actual expenditures, and it is intended as a reliable guide to the priorities of the General Assembly and the Governor. Actual expenditures for a given year may not agree closely with appropriations, mainly because certain amounts appropriated may not be expended or may be expended in a different year or over several years. Therefore, while expenditures tend to correspond roughly with appropriations for a given year, they may turn out to total somewhat more or less. In FY 1981 through FY 1984, responding to state revenue shortfalls, Governors impounded several million in appropriated funds. For FY 1982 through FY 1984, the above numbers reflect the original appropriations unadjusted by impoundments. Actual expenditures, shown elsewhere, were less and reflected the impoundments. In FY 1981 and FY 1986 the General Assembly reduced the actual appropriations to the amounts shown above.

[2] General Funds from prior years' surpluses were appropriated for capital construction and other one-time purposes and are included in these numbers as follows: FY 1979 -- $490.6 to VSC for deferred maintenance, $100.0 for equipment, $500.0 for a contingency reserve fund, $1,000.0 to limit tuition increases and deficits, $1,379.4 to restore bond reserve funds, $200.0 to the Department of Education for a new area vocational center, $575.0 for vocational education equipment, $1,000.0 to correct architectural barriers in public schools, $82.0 to the Department of Libraries to microfilm Vermont newspapers, $30.0 to the Governor's Commission on Public Education.

[3] Appropriation of FY 1979 funds for Vermont State Colleges was $6,572.3. Amount shown above includes one-time appropriations from FY 1977 and FY 1978 General Fund surplus (details in Note 2).

[4] Portion of state debt service attributable to higher education and elementary-secondary education was calculated by determining the share of each bond issue devoted to construction at UVM, the State Colleges and public school buildings, respectively, then applying these percentages to the actual annual debt service charges for each bond issue. These calculations replace estimates included in earlier versions of this table.

[5] Appropriations for the Department of Education, the Department of Libraries and the State Teachers Retirement System somewhat understate total state General Fund Support for these agencies. In certain years their allocation for state employee pay raises were included in a single appropriation for all state agencies. Also, certain support services such as office space are provided from funds appropriated to central service agencies of state government. In addition, the state's contributions to the Vermont State Employees Retirement System were provided in a single appropriation for all state employees until FY 1983. Starting that year they were included in departmental appropriations.

NOTES (Cont'd)

[6] For reference: comprises total General Fund appropriations for all functions of Vermont state government. Appropriations from the FY 1977 surplus totalling $14,456.0 are included as follows: $7,855.4 in FY 1978, $6,600.6 in FY 1979. Appropriations from the FY 1978 surplus totalling $5,054.9 are included in FY 1979.

[7] Prior to FY 1984 the Department of Education line item appropriation Adult/Vocational Education included only funding for Vocational/ Technical Programs. The Legislature combined adult and vocational programs in a single appropriation effective in FY 1984.

[8] FY 1988 actual general fund appropriations and equipment special fund appropriations: debt service is estimated based on FY 1988 allocated payments.

NOTE: Amounts shown for each fiscal year include current expenditures plus encumbered amounts which were actually paid the following year, except that for FY 1978 and FY 1982 gross encumbrances are included.

This report presents actual expenditures, not appropriations. An advantage of this, compared to a presentation of appropriations, is that expenditures of the various departments and agencies include amounts allocated from employee pay raise appropriations, whereas a presentation of appropriations shows pay raises in a single amount for all state employees. Other indirect support services, such as the state's contributions to the Vermont State Employees Retirement System, most office space and utilities for state expenditures in a given year may not agree closely with the amounts appropriated, mainly because certain amounts appropriated may not actually be expanded or may be expanded in a different year or over several years.

Expenditures from appropriations of FY 1977 and FY 1978 surpluses are included in FY 1978 through FY 1982 totals as follows: General Government $36,444 (FY 1979); Protection $3,172 (FY 1978), $23,828 (FY 1979); Human Services $502,215 (FY 1978), $428,865 (FY 1979), $8,419 (FY 1980); Education (other than Higher Education) $2,600,000 (FY 1978), $151,183 (FY 1979), $244,640 (FY 1980), $506,309 (FY 1981), $503,417 (FY 1982); Higher Education $14,708 (FY 1978), $2,708,799 (FY 1979), $533,788 (FY 1980), $132,432 (FY 1981), $89,699 (FY 1982); Environment $69,377 (FY 1980), $30,622 (FY 1981); Development $3,501,936 (FY 1978), $2,359,064 (FY 1979), $473,000 (FY 1980); Miscellaneous $1,600,000 (FY 1978), $1,300,000 (FY 1979). Total expenditures from FY 1977 and FY 1978 surpluses were: $8,222,031 (FY 1978), $7,008,183 (FY 1979), $1,329,224 (FY 1980), $669,363 (FY 1981) and $593,116 (FY 1982).

SOURCE: Reports of Finance and Annual Reports and the State Treasurer and Commissioner of Finance, Appropriation Acts, Budget Adjustment Acts and All Other Acts Providing General Fund Appropriations

GLOSSARY

ACADEMIC SUPPORT (EXPENDITURES). Expenditures for the support services that are an integral part of the institution's primary mission of instruction, research, or public service. Includes expenditures for libraries, museums, galleries, audiovisual services, academic computing support, ancillary support, academic administration, personnel development, and course and curriculum development. Also includes expenditures for veterinary and dental clinics if their primary purpose is to support the institutional program.

ASSOCIATE'S DEGREE. An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

AUXILIARY ENTERPRISES (EXPENDITURES). Expenditures of essentially self-supporting operations of the institution that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, college unions, student health services, college stores, intercollegiate athletics, and barber shops.

AUXILIARY ENTERPRISES (REVENUES). Revenues generated by or collected from the auxiliary enterprise operations of the institution that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. These enterprises are managed as essentially self-supporting activities. Examples are residence halls, food services, student health services, intercollegiate athletics, college unions, college stores, and barber shops.

BACHELOR'S DEGREE. An award that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes ALL bachelor's degrees conferred in a COOPERATIVE or WORK STUDY PLAN or PROGRAM. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with college studies. Also includes bachelor's degrees in which the normal 4 years of work is completed in 3 years.

CONTACT HOUR. A unit of measure that represents an hour (50 - 70 minutes) of scheduled instruction given to students. The total number of hours spent by all students in scheduled instructional activities during a specified period of time can be determined as follows:

If a course with an enrollment of 20 students meets 3 hours per week for 15 weeks, the number of student contact hours is 20 x 3 x 15 = 900. Similarly, if a course with an enrollment of 20 students meets 8 hours per day for 2 days, the number of student contact hours is 20 x 8 x 2 = 320.

CREDIT HOUR. A unit of measure that represents an hour of instruction that can be applied to the total number of hours needed for completing the requirements of a degree, diploma, certificate or other formal award.

CURRENT FUNDS EXPENDITURES AND TRANSFERS. The costs incurred for goods and services used in the conduct of the institution's operations. They include the acquisition cost of capital assets, such as equipment and library books, to the extent current funds are budgeted for and used by operating departments for such purposes.

CURRENT FUNDS REVENUES. Unrestricted gifts, grants, and other resources earned during the reporting period and restricted resources to the extent that such funds were expended for current operating purposes. Excludes restricted current funds received but not expended because these revenues have not been earned.

DOCTOR'S DEGREE. An award that requires work at the graduate level and terminates in a doctor's degree. The doctor's degree classification includes such degrees as Doctor of Education, Doctor of Judicial Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, or radiology. For the Doctor of Public Health degree, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.

ENDOWMENT YIELD (DIVIDENDS, INTEREST, RENTS, ROYALTIES, ETC.). Earnings (not realized gains) on investments of endowments regardless of distribution made of the earnings to various institutional funds. Includes interest, dividends, and amortization of purchased discounts and premiums.

FIRST-PROFESSIONAL CERTIFICATE (POST-DEGREE). An award that requires completion of an organized program of study designed for persons who have completed the first-professional degree. Examples could be refresher courses, or additional units of study in a specialty or subspecialty.

FIRST-PROFESSIONAL DEGREE. An award that requires completion of a program that meets all of the following criteria: (1) completion of the academic requirements to begin practice in the profession; (2) at least 2 years of college work before entrance to the program; and (3) a total of at least 6 academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself.

First-professional degrees may be awarded in the following 10 fields:

Chiropractic (D.C. or D.C.M.)	Osteopathic Medicine (D.O.)	Veterinary Medicine (D.V.M.)
Dentistry (D.D.S. or D.M.D.)	Pharmacy (D.Phar.)	Law (L.L.B., J.D.)
Medicine (M.D.)	Podiatry (Pod.D. or D.P.)	Theology (M.Div. or M.H.L. or B.D.)
Optometry (O.D.)		

FIRST-TIME FRESHMAN. an entering freshman who has never attended any college. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

FULL-TIME STUDENT.

Undergraduate:	A student enrolled for 12 or more semester credits; or 12 or more quarter credits; or 24 contact hours a week each term.
Graduate:	A student enrolled for 9 or more semester credits, or 9 or more quarter credits.
First-professional:	As defined by the institution.

GOVERNMENT APPROPRIATIONS (REVENUES). Revenues received by an institution through acts of a legislative body. These funds are for meeting current operating expenses and not for specific projects or programs. Examples are Federal land grant appropriations and Federal revenue sharing funds.

GOVERNMENT GRANTS AND CONTRACTS (REVENUES). Revenues from governmental agencies that are for specific research projects or other types of programs. Examples are research projects, training programs, and similar activities for which amounts are received or expenditures are reimbursable under the terms of a government grant or contract. Includes Pell Grants.

INDEPENDENT OPERATIONS (EXPENDITURES). Funds expended for operations that are independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may indirectly contribute to the enhancement of these programs. This category is generally limited to expenditures of a major Federally funded research and development center.

INDEPENDENT OPERATIONS (REVENUES). Revenues associated with operations independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may indirectly contribute to the enhancement of these programs. This category generally includes only those revenues associated with major Federally funded research and development centers.

IN-STATE STUDENT. A student who is a legal resident of the State in which he/she attends school.

INSTITUTIONAL SUPPORT (EXPENDITURES). Expenditures for the day-to-day operational support of the institution. Includes expenditures for general administrative services, executive direction and planning, legal and fiscal operations, and public relations/development. Excludes expenditures for physical plant operations.

INSTRUCTION (EXPENDITURES). Expenditures of the colleges, schools, departments, and other instructional divisions of the institution and expenditures for departmental research and public service that are not separately budgeted. Includes expenditures for credit and noncredit activities. Excludes expenditures for academic administration where the primary function is administration (e.g., academic deans). This category also includes general academic instruction, occupational and vocational instruction, special session instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students.

MANDATORY TRANSFERS. Those transfers that must be made to fulfill a binding level obligation of the institution. Includes mandatory debt-service provisions relating to academic and administrative buildings, including (1) amounts set aside for debt retirement and interest, and (2) required provisions for renewal and replacements to the extent not financed from other sources. Also includes the institutional matching portion for National Defense Student Loans (NDSL) when the source of funds is current revenue.

MASTER'S DEGREE. An award that requires the successful completion of a program of study of at least the full-time equivalent of 1 but not more than 2 academic years of work beyond the bachelor's degree.

NON-RESIDENT ALIEN. A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.

OPERATION AND MAINTENANCE OF PLANT (EXPENDITURES). Expenditures for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes.

OTHER SOURCES (REVENUES). Revenues or items not covered elsewhere. Examples are interest income and gains (net of losses) from investments of unrestricted current funds, miscellaneous rentals and sales, expired term endowments, and terminated annuity or life income agreements, if not material. Also includes revenues resulting from the sales and services of internal service departments to persons or agencies external to the institution (e.g., the sale of computer time).

OUT-OF-STATE STUDENT. A student who is not a legal resident of the State in which they attend school.

PART-TIME STUDENT.

Undergraduate: A student enrolled for either 11 semester credits or less, or 11 quarter credits or less, or less than 24 contact hours per week.

Graduate: A student enrolled for either 8 semester credits or less, or 8 quarter credits or less.

POSTBACCALAUREATE CERTIFICATE. An award that requires completion of an organized program of study requiring 30 credit hours beyond the bachelor's; designed for persons who have completed a baccalaureate degree, but do not meet the requirements of academic degrees carrying the title of master.

POSTBACCALAUREATE STUDENT. A student with a bachelor's degree, enrolled in graduate or first-professional courses.

POST-MASTER'S CERTIFICATE. An award that requires completion of an organized program of study of 60 credit hours beyond the master's degree, but does not meet the requirements of academic degrees at the doctor's level.

POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (LESS THAN ONE ACADEMIC YEAR). Requires completion of an organized program of study at the postsecondary level in less than 1 academic year (2 semesters or 3 quarters) or in less than 900 contact hours by a student enrolled full-time.

POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (AT LEAST ONE BUT LESS THAN TWO ACADEMIC YEARS). Requires completion of an organized program of study at the postsecondary level in at least 1 but less than 2 full-time equivalent academic years, or designed for completion in at least 30 but less than 60 credit hours, or in at least 900 but less than 1,800 contact hours.

POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (AT LEAST TWO BUT LESS THAN FOUR ACADEMIC YEARS). Requires completion of an organized program of study at the postsecondary level in at least 2 but less than 4 full-time equivalent academic years, or designed for completion in at least 60 but less than 120 credit hours, or in at least 1,800 but less than 3,600 contact hours.

POSTSECONDARY EDUCATION. The provision of a formal instructional program whose curriculum is designed primarily for students who have completed the requirements for a high school diploma or its equivalent. This includes programs whose purpose is academic, vocational, and continuing professional education, and excludes avocational and adult basic education programs.

PRIVATE GIFTS, GRANTS, AND CONTRACTS (REVENUES). Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. Includes only those gifts, grants, and contracts that are directly related to instruction, research, public service, or other institutional purposes. Includes monies received as a result of gifts, grants, or contracts from a foreign government. Also includes the estimated dollar amount of contributed services.

PUBLIC SERVICE (EXPENDITURES). Funds budgeted specifically for public service and expended for activities established primarily to provide noninstructional services beneficial to groups external to the institution. Examples are seminars and projects provided to particular sectors of the community, and expenditures for community services and cooperative extension services.

RESEARCH (EXPENDITURES). Funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution.

RESIDENCE. A person's permanent address determined by such evidence as a driver's license or voter registration. For entering freshmen, residence may be the legal residence of a parent or guardian.

SALES AND SERVICES OF EDUCATIONAL ACTIVITIES (REVENUES). Revenues from the sales of goods or services that are incidental to the conduct of instruction, research or public service. Examples include film rentals, scientific and literary publications, testing services, university presses, dairy products, machine shop products, data processing services provided by students as part of their instruction, cosmetology services, and sales of handcrafts prepared in classes.

SCHOLARSHIPS AND FELLOWSHIPS (EXPENDITURES). Expenditures given in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or non-credit. Includes Pell Grants and aid to students in the form of tuition of fee remissions. Excludes those remissions that are granted because of faculty or staff status. Also excludes College Work Study Program expenses.

STUDENT SERVICES (EXPENDITURES). Funds expended for admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples are career guidance, counseling, financial aid administration, and student health services (except when operated as a self-supporting auxiliary enterprise).

TUITION AND FEES (REVENUES). Charges assessed against students for educational purposes. Includes tuition and fee remissions or exemptions even though there is no intention of collecting from the student. Includes those tuitions and fees that are remitted to the State as an offset to the State appropriation. Excludes charges for room, board, and other services rendered by auxiliary enterprises.

UNCLASSIFIED STUDENT. A student taking courses creditable toward a degree or other formal award who cannot be classified by academic level. For example, this could include a transfer student whose earned credits have not been determined at the time of the fall report.

UNDERGRADUATE. A student enrolled in a four-year or five-year bachelor's degree program, in an associate's degree program, or in a vocational or technical program below the baccalaureate.

VERMONT STANDARDIZED FULL-TERM ENROLLMENT. Is a normative measure of instructional activity derived from credit hour enrollment. The total number of student credit hours is divided by a number representing a standard semester courseload of a student earning a degree in a normal period of time. It is calculated by dividing undergraduate credit hour enrollment by 15, graduate credit hour enrollment by 12 and adding the quotients. Also, each first-professional student enrolled (medicine and law) is counted as a single standardized full-term enrollment and added to that total. The concept is somewhat similar to Full-Time Equivalent Enrollment which, however, may be defined and measured differently by each institution.
